

Description:

The New York State Department of Transportation is approaching the Construction Phase for the replacement of the Monroe Street (Route 940J) bridge over Spring Creek and the Route 15A bridge over Spring Creek. The bridges will be constructed separately to minimize the impacts to the traveling public, residents and businesses.

Through our continuing efforts to keep our customers informed, we have prepared this brochure to obtain your comments. We encourage you to call or email us with any questions or concerns.

This project will replace the two existing 78 year old bridges. The life expectancy of the new bridges is over 75 years.

The project is currently scheduled for construction to begin in the **Spring of 2010** and completion in **Fall, 2010**.

Traffic Control:

The proposed detour for the Monroe Street (Rte 940J) Bridge will consist of Main Street and Rte 15A. The proposed detour for the Rte 15A Bridge consists of the following routes: NYS Rte 251, NYS Rte 15 and Honeoye Falls No. 6 Road. All local roads will be open to normal traffic.
